COACHES SPOTLIGHT - COACH KIT

What is your coaching
philosophy in three words?

"Progress over perfection."

If your team had to describe you
in two words, what would it be?

"Firm and fair."

What inspired you to start coaching volleyball?

"My mom was a high school coach in the Philippines, and she made me love the game. At first, I hated it because I didn't like the conditioning part. However, she taught me that in order to be better, self-discipline, nutrition, and sleep, along with conditioning (of the body and mind), are important factors in our sport."
