COACHES SPOTLIGHT - COACH ANGIE

What do you focus on the most when developing your athletes on and off the court?

"Developing fundamentally sound, competitive athletes who communicate, play with effort, and handle adversity with composure. My goal is to build confident, accountable young women both on and off the court."

Advice you would give to athletes who want to stand out at the next level?

"I'd give them discipline, consistency, and coachability. Talent helps, but work ethic, accountability, and responding to feedback are what truly set athletes apart."

What makes your teams special to you?

"They're more than athletes. Watching them grow in confidence, resilience, and belief in themselves and each other matters more than wins."
